SCIENCE POPULARIZATION CENTRE SUT

an extra-faculty organizational unit of the Silesian University of Technology, Poland, which is promoting and popularizing science and research studies in cooperation with other University units and research centers in Poland and abroad

SCIENCE COMMUNICATION

SCIENCE POPULARIZATION - WHAT'S THAT?

- presents science to a wide audience
- interests and encourages to the independent exploration of knowledge
- encourages the non-scientific recipient to scientific activities (citizen science)
- supports formal education, fills the gap in formal and informal learning (but does not replace it!)
- educates a knowledge-based society
- an educated graduate must be able to take part in the public debate, for which both substantive knowledge and communication skills are needed

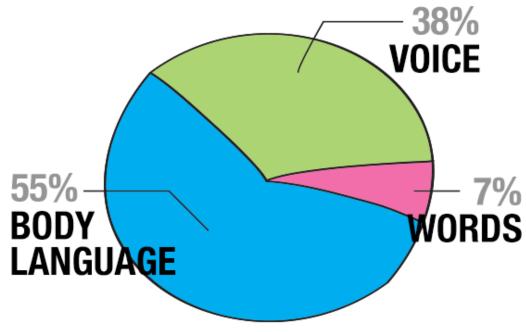

WHAT IS SCIENCE COMMUNICATION AND HOW TO START PERFORM IT EFFECTIVELY?

- Why and to whom I want to speak of "my science"?
- Which part of "my science" is important to the recipient?
- How to tell about "my science" interestingly? (clear and to the point, form, language, time, preparation!,)
- Importance of take home message

SCIENCE COMMUNICATION - DO SCIENTISTS NEED IT?

Mehrabian & Ferris' research results of communication during a presentation.

"Inference of Attitude from Nonverbal Communication in Two Channels"

The Journal of Counselling Psychology 31,
S. 248-252, 1967

WHO IS THE AUDIENCE FOR SCIENCE COMMUNICATION AND POPULARIZATION?

- social-economic environment
- media

SOCIALLY ENGAGED SCIENCE - EXAMPLES

- lifelong learning activities (of various "size")
- original initiatives
- citizen science projects

The Third Age University of Technology

Tailor made science

Junior and Senior University of Technology

RESEARCHERS' NIGHT AT SUT

Science Game Jam robimy planszówki popularnonaukowe

Kiedy: 23.04.2018 w godzinach 12-20 Gdzie: Centrum Nowych Technologii, 2 piętro, sala konferencyjna 221D

Kto: każdy, kto lubi planszówki i chce zrobić swoją własną wersję gry popularnonaukowej

Organizatorzy:

Centrum Popularyzacji Nauki, GRART Centrum Innowacji i Transferu Technologii Akademicki Inkubator Przedsiębiorczości Biuro Karier Studenckich, Rzecznicy Nauki

Zapisy: rjp6@polsl.pl (liczba miejsc ograniczona)

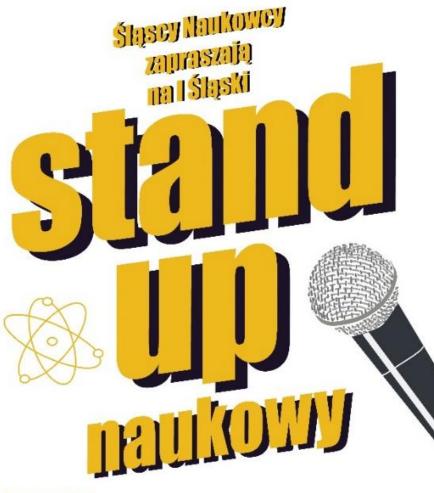

24 Accidina 2019 godz. 19:00 White Studenteld Sylvala vistagovolny

BacteriART - how to tell a story with bacteria?

Citizen science – when non-professional participants contribute to data collection to advanced scientific research

- STAGE 1: identifying the problem
- STAGE 2: determining if citizen science is the right approach
- STAGE 3: designing the project
- STAGE 4: building the community
- STAGE 5: managing the data (planning, collecting, assuring, analyzing, describing and preserving, integrating)
- STAGE 6: evaluating the project

TAKE ACTION

- Present the results to the decision-makers
- Provide feedback to the participants

THE EXAMPLES OF THE CITIZEN **SCIENCE PROJECTS**

itizen is a project that aims to research how to encourage environmental hip through engagement with citizen science. The project is funded by the EU

Citizen Science

Citizen science is data collection by members of the public to help answer research questions.

The Data Centre works to make biodiversity data and information more freely available in order to better understand and assist the protection of Ireland's biodiversity. An essential

- Think how your reseach can be:
 - presented essentially in 3 minutes (see slide 9)?
 - engaged in citizen science project (see slide 16 and QRCode)?

THANK YOU
